LinkedIn: <http://www.linkedin.com/in/janet-lester>

MAINFRAME and FULL STACK DEVELOPER

.NET Framework
Full Stack Web Application Design
C# Fundamentals
Database Management

Unit Testing
Software Development Lifecycle
Agile Scrum Methodology
Continued Growth in IT Knowledge

TECHNICAL AND PROFESSIONAL SKILLS

Front End: HTML5, JavaScript, jQuery, jQuery UI, CSS3, Responsive/Mobile Web Development, Bootstrap, ReactJS

Middle Tier: C#.NET, ASP.NET, LINQ, MVC, EF, ASP.NET Web API

Back End: ADO.NET, SQL, SQL Server

Tools: Visual Studio, Visual Studio Code, SSMS, PostgreSQL

Mainframe: Language: : COBOL, DB2, CICS, VSAM, JCL

Mainframe Tools: Endeavor, Xpediter, File-Aid, File-Aid for DB2, ROSCOE, TSO/ISPF, EASYTRIEVE, JIRA

Professional Skills: Troubleshooting, Debugging, Analysis, Reengineering, Technical Documentation, Critical Thinking, Communication, Project Management Fundamentals, Teamwork, Pair Programming, Working with offshore teams, Agile and Waterfall Project Methodologies

INDEPENDENT DEVELOPMENT PROJECTS (this is a Work in Process as I progress through training)

- **Front-End Studio Site 1:** Created an application for a fictitious Dog Trainer's Academy using only HTML and CSS, closely following the wireframe and business requirements provided.
- **Front-End Studio Site 2:** Enhanced the Front-End-Studio Site 1 by adding a template, JavaScript and JQuery with Responsive/Mobile Web code.
- **Personal Site:** Created a personal portfolio web application that contains information about me and the various projects and labs completed. This uses Responsive/Mobile development as well as a converted template, HTML, CSS, Javascript, JQuery, **etc.**
- **StoreFront:** Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
- **S.A.T. Scheduling Administration Tool:** Created a secure application for managing product data. Application is built to simulate an online class scheduling system. Administrators will have the ability to manage students, courses, scheduled classes, and enrollments.

TECHNICAL TRAINING

Full Stack Web Developer Program, Centriq Training
Kansas City, MO

Anticipated Graduation: 03/2022

- MVC Framework
- Trouble Shooting & Debugging
- Source Control
- Agile/Scrum (Created Team Project)
- Website Deployment
- Pair Programming
- Code Review

Bachelor of Science in Business Administration,
Central Missouri State University

Graduation: 12/1994

- COBOL
- Database Management (DB2/SQL)
- Assembler
- Project Management
- CICS
- JCL
- Business Design

WORK EXPERIENCE

Mainframe Engineer B2, Wipro/Infocrossing
Jefferson City, MO

10/2018 – 09/2021

- Started as contract position, transitioned into full-time
- Provided technical support and maintenance for the Missouri Medicaid system, working with state personnel to develop solutions and correct existing processes; updated production data as requested
- Initiated development of an internal reference directory for Mainframe developers
- Utilized tools and skills in TSO, Xpediter, SPUFI, DB2, JIRA, COBOL, JCL, CICS, VSAM, DB2 and SQL

Sr. Software Engineer, Mainframe, DST Systems
Retirement Solutions
Kansas City, MO

07/2013 – 07/2018

- Participated in a high performing team using Agile methodology; presented and demoed changes to clients and stakeholders; used JIRA for documenting and updating User Stories and incident tracking
- Worked closely with Quality Assurance to ensure delivery of quality and efficient products
- Performed in a variety of roles in all project phases for both Waterfall and Agile methodologies. Performed technical analysis, produced technical design documents/specs and Unit Test documentation and results to enhance processes or develop new processes
- Started transitioning to a Web development role via on-the-job training and self-study to include some EXTJS 6, Java, HTML, CSS, JSON, XML,.
- Worked with various tools including TSO/ISPF, File Manager, PostgreSQL, Spring MVS, Eclipse

Software Engineer, Mainframe, DST Systems
Pharmacy Solutions

07/2013 – 07/2018

Kansas City, MO

- Performed as Technical Leader in large projects, including ADABAS to DB2 conversion and redesign of current Mainframe systems to Web applications
- Managed workload of both offshore and domestic associates
- Assisted in the development of new DB2 tables to meet the data needs of the projects
- Performed as a mentor to other associates in all aspects of project lifecycle
- Performed code and technical document/spec reviews
- Created technical documentation and designed code for the more complex processes for the project
- Participated in the ETL process design and development using IBM InfoSphere DataStage product
- Assisted in estimating level of effort for projects, revising as needed to keep all stakeholders informed of the process
- Utilized tools and skills in TSO/ISPF, Xpediter, SPUFI, DBPAL, DataStage, COBOL, ADABAS, DATACOM, DB2, JCL, CICS, VSAM, DB2 and SQL

Software Engineer, Mainframe, DST Systems

10/1997 – 07/2013

Home Office Services

Jefferson City and Kansas City, MO

- Performed roles as Project and Technical Leader of varying sized projects, as well as administrative responsibilities for 5 associates, as well as managing workload for both domestic and offshore associates
- Participated in analyzing, designing, coding, testing, debugging and maintaining COBOL and CICS view programs
- Created, maintained and enhanced Vision Home Office Web interface, DST SmartDesk GUI process and NSCC batch interfaces.
- Assisted in the development of new DB2 tables to meet the data needs of the projects for various VSAM file to DB2 conversions
- Performed as a mentor to other associates in all aspects of project lifecycle
- Performed code and technical document/spec reviews
- Utilized tools and skillset in TSO/ISPF, Xpediter, SPUFI, DBPAL, SAR, SDSF, EASYTRIEVE, NDM, SYNC SORT, QUICKSTART, MOVE FOR DB2, FILE-AID, COBOL, DATACOM, DB2, JCL, CICS, VSAM, DB2 and SQL

Computer Information Specialist III

12/1994 – 10/1997

Missouri Department of Social Services

Jefferson City, MO

- Responsible for maintaining the legacy Child Support System and assisted with conversion tasks for the new automated system (MACSS)
- Assisted in training and supervision of Interns
- Provided technical assistance and maintenance for existing processes
- Met with end-users to help determine their processing and design needs
- Utilized tools and skills in TSO/ISPF, ROSCOE, JCL, IDMS Database, COBOL, CICS, EASYTRIEVE and FOCUS reporting
